

GREAT SOCIETY SODOM AND GOMORRAH

By ALTON THATCHER

The President of the United States Calvin Coolidge once commented to the Protestant Evangelist, Billy Sunday, that he, (Coolidge) could hardly "pursue an honest policy in government for Jewish pressure."

Some patriotic Americans who are authorities on American Constitutional government and the monetary system contend that if America's "NATIONAL CURRENCY" should be restored under the control of Congress, as the Constitution of the United States has provided for it to be, and as it was prior to February 25, 1863, instead of the monetary system remaining under the control of International Jewish Bankers, America's involvement in foreign wars would cease, and Communism would disappear . . . from our own shores and from many foreign lands.

It has been stated by authoritative sources that the United States has suffered national economic depressions, unemployment, and hunger — in our land of plenty — and that our country has been drawn into foreign wars and conflicts, plagues instituted by the International Bankers so that the Earth should become their inheritance; that the international bankers have created higher and higher interest rates on monetary loans from their phony "Federal Reserve Banks"; that behind-the-scenes they instituted the withholding tax and greater and greater taxes which are channeled through the federal government for their special benefit at the expense and enslavement of the people of the United States.

Since the American Civil War, they have been "packing" the federal government with their trained political "seals" to do their bidding for them. And these Jews are still "packing" it with their stooges.

Following World War I there were still enough intelligent and patriotic leaders in the U.S. Senate to prevent the Senate body from ratifying America's membership to that modern "Tower of Babel" known as "The League of Nations."

Then came the worst economic depression in America's history. The International Bankers had shut off their currency from circulation not only in the United States, but in foreign countries as well. In order to further force their will upon the American people and other peoples of the Earth, the Jews instituted World War II which paved the way for their World government, both of which the United States was shoved into and at the expense of the American people physically and financially.

And thus the "Tower of Babel" had a rebirth. It was to this Communist United Nations established upon our soil that our de-facto federal government surrendered our national sovereignty, independence, and liberties. As a result, our U.S. Constitution had been criminally violated and subverted, and now our Republic is "dead".

Directly or indirectly, the United Nations controls our NATIONAL DESTINY economically, politically, and racially. And certainly America's foreign policies, in peace or war, function under United Nations' direction.

Our Nation is beset with political treason in high places, exorbitant economic inflation, and moral corruption.

We no longer have any constructive national policy. Our courts, legislatures, and press are prostituted. Social justice has been crushed under the weight of social injustice perpetrated against the American people by Marxist Jews. States' Rights have been obliterated. And Constitutional Government has given way to red MOBOCRACY and racial mongrelization.

Far too long our people have been indoctrinated by Marxist propaganda. It is corrupting our society.

Sodom and Gomorrah once had "Great Societies," but their societies eventually became debased, vile, and corrupt. And as a result, God destroyed those people and their two City States and all those about them — (Genesis 19: 1-25).

THE GREAT SOCIETY GLEE CLUB

GREAT SOCIETY PROTECTS THE CRIMINAL

By BISHOP FULTON SHEEN

Some probably remember the famous Victorian "tearjerker," "Hearts and Flowers." It was played in practically all melodrama, especially when the poor family was about to be dispossessed by a vicious landlord on a snowy night. Modern literature, as Edmund Fuller has pointed out, has now gone to the opposite extreme where pity is for the rapist not the raped, for the criminal not the victim. This false compassion started with novelists like William Saroyan and John Steinbeck who presented the "lovable bums," the shiftless, the drunks, as "beautiful little people."

The next stage was to excite pity for the genial rapist, the jolly slasher, the dope pusher, the adultress playing musical beds, the rich kid who sells "goofballs," knif-ers, sluggers, muggers and the homosexuals.

What is true compassion? It is a sharing of sorrow, a pity and sympathy, a desire to help, a bearing of another's burdens as if they were one's own. Compassion can be moral, material or physical. In the moral realm, it shares guilt as if it were one's own. A judge who might sentence a murderer to death and then take the punishment, would be a faint example of Christ taking on our sins—dying for them as if they were His own. Compassion is physical when one helps another carry an extra burden. A boy with another boy on his back was asked if he could bear up under it and he answered: "He's not heavy; he's my brother." Material compassion is a sharing of one's goods with the poor. Compassion, in a word, is vulnerability. It is a sympathy so deep and keen that one feels the wounds of others as if they were his own.

Compassion also makes a distinction, between a man destroyed by his own fault, and one destroyed through no fault of his own. No valid compassion can exist without a separation of right and wrong. Otherwise, there is no difference between a saint and a sinner, a murderer and his victim.

But today, thanks to a few social workers, a few incompetent judges, and woolly-minded thinkers, and many "sob sisters," compassion is extended not to the one who was mugged, but to the mugger, not to the policeman, but to the dope pusher, not to the girl killed by a dope fiend, but to the rich boy from an interesting family. No blame may be laid at the door of the criminal or the degraded. The new saviors of a perverted society say: "Neither do I condemn thee. Go, and sin some more."

With what result? Crime increases about 19 per cent a year in the United States. In New York alone there are 60,000 narcotic

And America deserves no less than Divine Destruction by whatever method unless Constitutional Government and National Independence and freedom in this country are restored versus alien atheistic control.

Where is our self-National pride and patriotism of yesteryears?

addicts and 36 per cent of all who have to do with narcotics in the nation are released through "clemency" and too often to commit worse crimes. A burglary is committed every 30 seconds in this country; a motor car is stolen every minute; a rape is committed every three minutes, and a murder every hour. Two-thirds of those arrested for robbery had already received "compassion." Forty-three per cent of all crimes against property have been done by the age group between 10 and 17. Twelve out of every 100 policemen are assaulted in the line of duty. Nobody is "bad" because there is no right and wrong. Criminals are "sick."

One professor in a large university had just finished his lecture on social work, advocating compassion to punks and criminals. On his way home, he was mugged and severely beaten. He insisted on going to the police station before being taken to the hospital to complain against the city for not protecting life and property. He wanted compassion. Gone was his compassion for muggers. May those judges and social workers who deny the difference between right and wrong, learn the lesson that not every criminal is "sick" without being mugged themselves.

GREAT SOCIETY IS SOCIALISM!

In Chicago, at the Socialist Party's national convention, Norman Thomas, one time president of the Socialist Party, had this to say:

"We all have reason to be grateful to him (Lyndon Johnson) in the way he is handling civil rights and poverty. I ought to rejoice, and I do. I rub my eyes in amazement and surprise. His war on poverty is a Socialistic approach."

SOCIALISM IS MARXISM

Do you realize the significance of the "Great Society" and its program for National Marxian Socialism?

Here are the words of George Bernard Shaw, one of its organizers and founders:

"I also made it clear that Socialism means equality of income or nothing, and that under Socialism you would not be allowed to be poor. You would be forcibly fed, clothed, lodged, taught and employed whether you liked it or not. If it were discovered that you had not the character and industry to be worth all this trouble, YOU MIGHT POSSIBLY BE EXECUTED IN A KINDLY MANNER: but whilst you were permitted to live you would have to live well."

COMMUNISM AND SOCIALISM ARE MARXIAN TWINS

Karl Marx wrote the Communist Manifesto in 1848 for guidance of Communists of the entire world. He argued that Communists are the true, or scientific Socialists, and advised violent, revolutionary programs as the only practical way to bring about the principal Communist-Socialist objective, which is state ownership of all business and industry, including the farms.
